

# ARENAL VOLCANO TOURS

The [Arenal Volcano](#) once erupted an average of 41 times per day. Today, the volcano is in a resting phase but still a sight to behold. The region is not only home to the volcano, it also benefits from volcano-fed thermal hot springs, plunging waterfalls, the impressive size of Lake Arenal, and a rich secondary rainforest ecosystem with exotic wildlife.

Now considered by many the [adventure capital of Costa Rica](#), Arenal is a great base for adventure tours like zip-lining, whitewater rafting, waterfall rappelling, and more.
